PORTLAND, MONDAY, JAN. 28.

SUPPRESS PILLAGY

There are charges upon commerce at the Columbia river that commerce at Puget sound does not have to bear. These charges in large part are artificial, they result from old and hard to shift off. Yet they should be shaken off, and the legislature of Oregon should act in this direction, so far as the work can be done.

One of these charges at the Columbia river is the pilot system. All other charges are coming to be paid by the shippers, but the pilot system has been reduced till it costs no more than at Puget sound. Yet a strong effort is making to continue the excessive charges for pilotage at the Columbia river.

Here are some figures. The Oregonian commends them to the legislature for careful study.

Disbursed at Puget Sound	Disbursed at Columbia River
Ship Astoria, cargo	2788
Ship Astoria, cargo	1500
Ship Astoria, cargo	1500
Ship Astoria, cargo	1500
Ship Astoria, cargo	1500
Ship Astoria, cargo	1500
Ship Astoria, cargo	1500
Ship Astoria, cargo	1500
Ship Astoria, cargo	1500
Ship Astoria, cargo	1500

By this statement it will be seen that the difference in tonnage at the Columbia river and Puget sound is inappreciable, but while pilotage at Puget sound is optional, and in fact costs nothing it is compulsory here, and amounts to 22 cents per ton on cargo carried. It is necessary to say that this cost comes out of the pockets of the country.

Another great evil arises between exporters at the Columbia river and at Puget sound grows out of abuses that at Puget sound are charged here. Take for illustration the following figures showing advantages to crews.

Disbursed at Puget Sound	Disbursed at Columbia River
Ship Astoria, cargo	2788
Ship Astoria, cargo	1500
Ship Astoria, cargo	1500
Ship Astoria, cargo	1500
Ship Astoria, cargo	1500

Ship Astoria, cargo	1500
Ship Astoria, cargo	1500
Ship Astoria, cargo	1500
Ship Astoria, cargo	1500

The greater part of this extra cost at the Columbia river is caused by a ring of robbers doing business mainly at Astoria, but extending its operations to Portland. A bill introduced by Mr. Strawbridge, of Multnomah, should it become a law will do much towards breaking up the practice of this gang of pirates and the legislature consequently should pass it, though a derogation from this gang, as well as from its confraternity of the pilotage is at stake to prevent legitimate shipping.

In these exhibits appear the main reasons why it costs more to ship from the Columbia river than from Puget sound. The exhibits may easily be verified by a legislative committee. The same shipping house, doing business both in Portland and in Tacoma loaded all the ships named above, and consequently information upon which the legislature can act may be had simply by asking for it. The Oregonian calls upon the legislature in the interest of the commerce of the Columbia river in the interest of the producers of the great territory which finds its outlet through the Columbia, to take action. If proper action is taken these gangs of pirates will be broken up, money the legs of the nation will be saved, and the time has arrived when piracy must be put down, if we are to save our commerce and protect the producers of the country.

NEEDED SUBSIDIES

Representative O. E. Tucker of Douglas county has introduced a bill for the purpose of making the price of grain raised or increased to meet the difficulty of carrying, rough or timber land. Nearly all the land that can be surveyed at the price allowed by the government has been surveyed and special provisions must be made for surveying the heavy timber lands along the coast and in the foothills. In the localities of the coast, it is impossible to survey a man who has been for so many years a settler, to neglect his rights and permit his land to be surveyed and sold to a stranger. He can not sell though he has been in the land longer than he would be required to earn his life. In fact he has no equivalent in the land and only stays by sufferance when he should be recognized as having all the rights of a landowner.

Though different surveys have been recommended and legislative action has been taken, the work of land survey has not been done. The government is not doing its duty to the rights of the settler. It is not doing its duty to the settlers in such a way as to enable them to know what they have and to realize a right of property they are entitled to. It is not doing its duty to the settlers in such a way as to enable them to know what they have and to realize a right of property they are entitled to.

A broken down settler, a settler who has been for so many years a settler, to neglect his rights and permit his land to be surveyed and sold to a stranger. He can not sell though he has been in the land longer than he would be required to earn his life. In fact he has no equivalent in the land and only stays by sufferance when he should be recognized as having all the rights of a landowner.

Though different surveys have been recommended and legislative action has been taken, the work of land survey has not been done. The government is not doing its duty to the rights of the settler. He can not sell though he has been in the land longer than he would be required to earn his life. In fact he has no equivalent in the land and only stays by sufferance when he should be recognized as having all the rights of a landowner.

WATER FOR PORTLAND

The city of Portland wants a supply of pure water. Such supply may be had from the Bull Run. Its obtaining is within the power of the city, and nothing ought to be prevented to hinder this great enterprise and public need.

Some of our citizens have been availing their time and attention free of charge to the city to carrying out the purpose of supplying the city with water. In this matter they have been acting only by public spirit and a sense of public duty. What they have already done is well known. The final step in the enterprise is that of bringing in water from Bull Run.

In this enterprise we believe the people have the fullest confidence, and we think there is a general desire that they should go on with the work. They have begun. A full measure of the necessary bonds is now being issued. There is no objection to the amount of this bill, in any way the bill is thrown to the way of it.

Mr. C. H. Lewis is treasurer of the company. He has a long record in the company of \$250,000 for the faithful performance of his duties. No one supposes that the city treasurer would be a more responsible man; and there are reasons, moreover, why it would be better in the construction of this work to keep the funds separate from those of the city government. The question also arises whether the proposition to take the funds out of the hands of the treasurer of the city is not a reflection upon his fidelity.

As a principle there can be no objection to the proposition that no member of the committee shall be interested directly or indirectly in supplying materials. There are possible circumstances in which there might be abuses without this restriction. The case now is never stands thus. Two members of the committee Messrs. Ladd & Reed have recently begun to manufacture iron pipe at Oswego. Are they to be forced off the committee or not allowed to put an Oregon product in competition with Eastern products?

Applying these principles to the case at hand, there is any fact in Messrs. Ladd and Reed would or could take an undue advantage of the city in this matter or that our people are indifferent to the establishment of a great home industry. Let us have a provision in the act that all contracts shall be let to the lowest responsible bidder. This is the only way to save the city from being taken advantage of.

Another great evil arises between exporters at the Columbia river and at Puget sound grows out of abuses that at Puget sound are charged here. Take for illustration the following figures showing advantages to crews.

Disbursed at Puget Sound	Disbursed at Columbia River

LAZINESS AND INTERFERENCE

The stock temperature dogma is that of the poverty in the world is due to interference. This statement is not true. It is true that a great deal of money is wasted in the saloons, but the saloons are not the cause of poverty. The cause of poverty is laziness and interference. The saloons are only a symptom of the disease.

war crimes decreased. There is no doubt that drunkenness and crime are more often caused by poverty than by wealth. The cause of those evils is poverty. Poverty is the cause of those evils. Poverty is the cause of those evils. Poverty is the cause of those evils.

IN THE BLOOD

During the past third of a century research has been busy in the broad domain of human anatomy, seeking with earnest endeavor to fix the degree of the responsibility which hereditary blood in the development of character has. It is a question of the responsibility which hereditary blood in the development of character has. It is a question of the responsibility which hereditary blood in the development of character has.

The tendency of blood to turn to bile and after a period of one or two generations, and being again to the surface, then the characteristics of an individual are determined. The tendency of blood to turn to bile and after a period of one or two generations, and being again to the surface, then the characteristics of an individual are determined.

This is a natural, scientific, and not a drinking should have ended in nothing so beautiful and salutary as Catherine Layburn's story. This is a natural, scientific, and not a drinking should have ended in nothing so beautiful and salutary as Catherine Layburn's story.

The Methodists in recent months have determined that they will not accept of a man who is a member of another church. This is a natural, scientific, and not a drinking should have ended in nothing so beautiful and salutary as Catherine Layburn's story.

Inasmuch as this never has and never can be, a full statement to this proposition would block the door of investigation and catalogue as a mere speculation. This is a natural, scientific, and not a drinking should have ended in nothing so beautiful and salutary as Catherine Layburn's story.

It is hardly too much to say that the application of so severe a test as this to prove that heredity is responsible for a tendency in the future, a careful training will direct this tendency into channels of good, and do so even when it is a strongly defined criminal tendency. This is a natural, scientific, and not a drinking should have ended in nothing so beautiful and salutary as Catherine Layburn's story.

The records of reform schools and of children's aid societies prove this, and the knowledge of what will direct effort and energy into channels of good, and do so even when it is a strongly defined criminal tendency. This is a natural, scientific, and not a drinking should have ended in nothing so beautiful and salutary as Catherine Layburn's story.

There is something in blood, and an officer who had been successful as a father and two sons to prison. There is something in blood, and an officer who had been successful as a father and two sons to prison. There is something in blood, and an officer who had been successful as a father and two sons to prison.

**TO UNLOAD**

**FOURTH WEEK**

**OF OUR ANNUAL**

**COMMENCING**

**Tuesday, Jan 29, 1889**

**FOR 5 DAYS.**

**One Price to All**

**SOLE AGENCY MME. DEMOREST'S RELIABLE PATTERNS**

**Priestley's Silk Warp Henriettas**

**Are the most thoroughly reliable goods in the market. They are made of the finest silk and best Australian wool. You can easily distinguish them by their softness and beauty and regularity of finish. They are always the same in quality, weight, and shade, thus enabling you to match any piece, and are dyed in two standard colors. None genuine unless rolled on the "Furnished Board," showing the grain of the wood, which is the Priestley Trade-Mark.**

**FOR 5 DAYS.**

## NEWSPAPER

[illegible]

It wing and upper tail feathers. The legs are slate blue in young birds, turning to lead-gray when adult. There is but a slight difference in color between the males and females.

**MISTLETOE**

The city of New York imports mistletoe in large quantity for the holidays. It grows in England on apple and other fruit trees. This year this mistletoe was sold at a dollar a pound, wholesale, a large quantity having been spoiled on the passage by steamers. Eastern papers say mistletoe does not grow in this country. It may be possible that the English mistletoe is a finer article and possesses qualities peculiar and valuable; but here in New York our own are loaded down with a luxuriant growth of the parasite, and this variety will add New Yorkers to shoppers on the holidays in more cheerful guise.
